

Stanislau Yanukou

SENIOR SOFTWARE ENGINEER

✉ syanukov@gmail.com | [in](#) stanislau-yanukou

Education

Polotsk State University

M.Sc. IN COMPUTER SCIENCE AND ENGINEERING

Polotsk, Belarus

Sep. 2009 - Jun. 2013

Vitebsk State Polytechnic College

B.Sc. IN COMPUTER SCIENCE AND ENGINEERING

Vitebsk, Belarus

Sep. 2005 - Jun. 2009

Skills

DevOps Azure, Docker, Kubernetes, Helm

Back-end Spring Boot, Microservices, gRPC, Kafka, Kong Gateway, JPA, Test Containers, REST, Liquibase, Gradle, JUnit, Mockito, PostgreSQL

Programming Java, Kotlin (basic experience), Go (basic experience)

Languages English, German (B2)

Experience

apinity GmbH

SENIOR SOFTWARE ENGINEER, DELIVERY LEAD

Munich, Germany

Dec. 2021 - PRESENT

- Utilized my expertise to enhance the whole lifecycle of microservices - to design, develop, test, deploy, maintain, and improve
- Designed and led the migration of inter-service communication from Axon Framework to a solution using Apache Kafka and gRPC.
- Introduced a centralized observability stack (Spring Boot Actuator, OpenTelemetry, Grafana (Loki, Tempo)).
- Built fully automated CI/CD pipelines on Azure DevOps for containerized applications using Docker, Azure Container Registry and Kubernetes.
- Implemented Kong Gateway using Go.
- Managed work of a small external team (prepared tickets together with PO, made technical reviews, acted as first point of contact in case of obstacles).

Enmacc GmbH

SENIOR SOFTWARE ENGINEER

Munich, Germany

Nov. 2017 - Sep. 2021

- Designed and implemented RESTful backend services for a professional OTC energy trading platform.
- Supported quality management of the codebase and introduced new features and technologies (Kubernetes, Apache Kafka).
- Conducted technical interviews.
- Onboarded and mentored younger colleagues.

Elinvar GmbH

SENIOR SOFTWARE ENGINEER

Berlin, Germany

Mar. 2017 - Nov. 2017

- Developed an integration sub-system of the Elinvar's platform to provide its core calculation module with data from various bank institutions and financial news providers.

Market Logic Software AG

SENIOR SOFTWARE ENGINEER

Berlin, Germany

Dec. 2015 - Feb. 2017

- Designed and implemented a platform to gather and integrate data from variety of sources (emails, RSS, SOAP and REST web services, HTML crawling), pre-process, and load it into Elasticsearch cluster to make it available for other systems.

Luxoft Poland. Sp. z o.o.

SENIOR SOFTWARE ENGINEER

Wroclaw, Poland

Oct. 2014 - Dec. 2015

- Designed and developed a tool to monitor memory availability in a Hazelcast cluster, and clean up unnecessary data if needed.
- Implemented MapReduce jobs on Apache Hadoop cluster.
- Wrote Pig scripts and developed Apache Spark jobs to process big volumes of financial data.
- Participated in development of an internal UI tool used to visualize state of aforementioned jobs.
- Conducted technical interviews.

ISsoft Solutions

JAVA DEVELOPER

Minsk, Belarus

Aug. 2013 - Oct. 2014

- Implemented various services of a restaurant operations platform.

Intetics Co.

Minsk, Belarus

JAVA DEVELOPER

Aug. 2012 - Aug. 2013

- Implemented a system to analyze user's mobile usage (such as SMS, overseas and domestic calls, Internet usage, etc.), simulate the utilization of tariffs from different mobile providers, and suggest a more profitable deal if possible.

Artezio

Vitebsk, Belarus

JUNIOR JAVA DEVELOPER

Feb. 2011 - Jun. 2012

- Developed a time-tracking web-app.

Trainings & Certification

The Linux Foundation

CKAD: CERTIFIED KUBERNETES APPLICATION DEVELOPER

Jun. 2022
